Authors are invited to submit **original research** or **extended works** of previously published papers in conferences and/or journals. Topics addressed are, but not limited to:

Agile software development	Program comprehension
AI and Knowledge based software engineering	Program synthesis
Aspect-orientation and feature interaction	Programming languages
Autonomic and (self-)adaptive systems	Recommendation systems
Cloud computing	Refactoring
Component-based software engineering	Requirements engineering
Computer supported cooperative work	Reverse engineering and software maintenance
Configuration management and deployment	Search-based software engineering
Cooperative, distributed, and collaborative	Security, privacy and trust
Cyber physical systems	Software architectures and design
Debugging, fault localization, and repair	Software components and reuse
Dependability, safety, and reliability	Software economics and metrics
Distribution and parallelism	Software engineering
Embedded and real-time software	Software evolution and maintenance
Empirical software engineering and metrics	Software modeling and design
End-user software engineering	Software policy and ethics
Formal methods	Software processes and workflows
Green and sustainable technologies	Software product lines
Grid software	Software requirements engineering
Human-Computer Interaction	Software reuse
Internet and information systems development	Software safety and reliability
Middleware, frameworks, and APIs	Software security
Mining software engineering repositories	Software services
Mobile and ubiquitous computing	Software testing and analysis
Mobile applications	Software tools and development environments
Model-driven engineering	Software visualization
Object-oriented techniques	Specification and modeling languages
Parallel, distributed, and concurrent systems	Theory and formal methods
Performance	Traceability
Probabilistic systems	Ubiquitous/pervasive software systems
Program analysis	Validation and verification

Paper Submission Deadline: **28th September 2016**
Acceptance Notification: **20th October 2016**
Issue Publication (Online): **01st November 2016**

More details and more topics are available here: http://www.journalofsoftware.org/call-for-papers

For other information and paper submission, please see the website: http://www.journalofsoftware.org
